EASIER MARKET IN LOAN CIRCLES

Bankers in More Optimistic Frame of Mind-Statements Reflect Conditions.

COLLECTIONS ARE BETTER

Trade Generally Is Said to be Good-Crop Outlook Is Now Much More Hopeful.

Local banking conditions for the past neck are reported as satisfactory. The ommercial banks have been making leans quite freely to their customers, s becoming more optimistic. If there ago, it is not appreciable now. The savings banks are making but few cans at present, but the general situaon is one of improved conditions. The ed days ago shows an improvement in the increase of deposits and additions to surplus. Both state and national banks are in good, substantial condition. The only drawback is the falling off of the clearings, indicating a shrinkage of business transactions. But at the same time, collections are reported as much better than they were with a diminution of back as vs an improvement it e days ago sho reported as much better than they
were, with a diminution of book accounts. Reports received at the banks
indicate the crops have not suffered
to the extent anticipated.

HENRY CLEWS' LETTER.

Henry Clews in his latest circular Henry Clears in letter says:

The most encouraging factor, finandally, is the continued ease of money, which is likely to continue until the crop movement begins. The extreme stringency anticipated for next fall will probably be moderated by the universal preparations for such an event, because disasters foreseen seldom ocor Nevertheless, the situation of the restern banks is not an enviable one. At the reserve centers these institu-tions may be found in strong condition wing to recent precautions, but the forthcoming bank reports will be watched with unusual interest, and until the autumnal strain is passed the suffern of the western land specula-tion will not be definitely known. Intion will not be definitely known. In-terior banks, as is well known, will be ebliged to depend upon New York much mere than usual for assistance in moving the crops. The New York banks will, however, be in a position to render such aid, especially as money abroad is easy, our credit there is good ask the improving tendencies of our nd the improving tendencies of reign trade will permit of ample imts of gold. Engagements of the lat-are already reported, and although is doubtful if these transactions relided any profit, yet the operation is smilleaut and demonstrates that the United States will be in a position to draw the precious metal from abroad

much larger most assuring.
The wheat crop situation is not very defactory, but the outlook for corn addats is good. The indications are er an irregular market. oven earning power bought at pres-prices will eventually yield hand-be profits. But until the political infinancial clouds disappear more upletely, it will be safe to use ex

Mall address just "Salt Lake," never mind Street No., there's no other. The McCaskey Account Register, all their books and supplies.

The class of orders being sent in indi-The class of orders being sent in indi-cates a filling up of depleted lines due to special demands, and the filling of unfilled orders given in the spring. Business generally is reported in a healthy condition, with the demands of the building trade still continuing, as in the call for gaivanized iron of all kinds, plate, nails, household furnish-ings including tin and granite ware, etc. The mining machinery trade still etc. The mining machinery trade still remains dull, largely so, it is claimed, because of the uncertain conditions of the copper market.

LUMBER.

The lumber trade reports an unevent-ful week. Cars are not hard to get, so that shipments are easy, and lumber comparatively easy to bring in here. Prices are reported steady. The cement market is as badly pushed as ever, and orders are received subject to delay.

WHOLESALE DRY GOODS.

The wholesale dry goods trade is much interested in the closing down of the American Print works at Fall River. The management stated its in-ability to meet the demands of buyers for lower prices, and rather than at a loss suspended operations, letting out 6,000 employes. Heavy shipments of general late summer and fall goods are being received at the local wholesale houses which are thus accumulating extensive stocks. Jobbers report less call for fine bleached fabrics, but a steadier call for bleached sheetings, made-up sheets, pillow cases, and other domestic goods. Zephyr ginghams are popular, there is also a good business in fancy white goods for next spriny. Silk piece goods are stronger, higher raw material forcing advance in prices. with a further advance predicted. Man-ufacturers are more optimistic regard-log the future, as the outlook has clear-ed up and prospects are brightening. In linens, American importers are plac-ing orders abroad more freely. Burlap prices are easier

RETAIL DRY GOODS.

RETAIL DRY GOODS.

The retail dry goods trade reports the week's business fair, with the cash business larger than it was last year, and less book accounts. The demand is good for wash dresses and general summer lines; but shoes have dropped off. The milliners are reported grieving because nothing seems to be doing in their line at present; but business at the notions counters is livelier than ever. Dry goods houses are now reducing expenses, retrenching in all departments. It is also vacation time, and buyers are all east, combining vacation ments. It is also vacation time, and buyers are all east, combining vacation pleasures with business.

BUSINESS NOTES

While the money stringency still continues, there is a slight improvement over previous weeks. During the week the Consolidated Wagon & Machine company paid its quarterly dividend of 2½ per cent; Zion's Benefit Building society paid its 7 per cent annual dividend, and the State bank paid its 3 per cent quarterly. Considerable transfers have been made in Utah-Idaho Sugar company stock.

UNIQUE COLONIZATION TO BE TRIED IN EAST

In some of the eastern cities a unique In some of the eastern cities a unique form of social colonization scheme is being tried out with some degree of success. The plan is for a number of friends to secure a tract of land in a desirable part of the city. Here all these dozen or more, as the case may be, erect their houses within close proximity of each other, the idea beproximity of each other, the idea being to build up an exclusive little circle all their own. People in moderate circumstances can adopt this scheme as well as people more affluent, the main idea being to form a sort of district where friends will be more conveniently near one another in time of social parties, informal calls, and various other conditions which make proximity of friends desirable. Salt Lake is beginning to spread over so much territory that such an idea may appeal to people here. The scheme holds out some pleasant possibilities, at any rate. ome pleasant possibilities, at any rate.

INQUIRIES BEGIN AGAIN.

FARM LANDS ACTIVE.

The Sears Investment company report considerable activity in farm lands, the sales of the past few weeks falling off a little, but the situation is sufficiently encouraging to warrant that as soon as the hot days have past much farm property in the valley will change hands. There seems to be a constantly growing demand from city people for farm lands, places where fruits may be grown, chickens raised, and where all the comforts of farm life may be enjoyed within an hour's ride from the city. To meet this demand, there are always plenty of ranchers, farmers and fruit growers who desire a change from pastoral pursuits, and they are willing and sometimes anxious to barter with the city brother, with a consideration in cash to cover the discrepancy in value between the farm and the city home.

A GOOD MORTGAGE SHOWING.

Conditions must be in a satisfactory condition in any city where the re-leases of mertgages exceed new mort-gages filed. That was the case in Sait Lake, Friday. That is but another leases of led. That was the case in Salt Lake, Friday. That is but another straw to show the way of the wind, and it proves the contention of the optimists that the money market is gradually loosening up; that money is becoming easier of access to the man of moderate means as well as to the capitalist, and that Salt Lake and vicinity realty is slowly but surely passing from a passive state to one of greater fall activity, the only thing now holding back the real estate market being monetary conditions.

MARBLE FOR MCINTYRE.

A large consignment of Yule marble from Colorado arrived this week to be used in covering the walls of the vestibule and hallway up to the second landing of the new eight-story McIntyre office building on the west side of Main street near First South. Some of these slabs are three by eight feet, and possess a beautiful white, smooth finish. This material, together with another superior variegated marble imported from Vermont, is now being set in place, and with that done, the McIntyre block will be finished, adding one more to the numerous thoroughly modern structures to be credited to the year 1916 for Salt Lake.

BANKS FOLLOW SUGAR FACTORY

New Banking Institutions for Sevier County-Crops Look Fine.

W. W. Riter and H. G. Whitney have returned from a visit of several days to Sevier county where they went in the interests of the Deseret National bank to look into the organization of banks at Monroe and Eisinore. Mr. Riter stated last evening that the bank at Monroe had been decided on, and it would be organized at once with a capital of \$25,-,000, which had been fully subscribed by the leading business men of Monroe and Sevier county, with others connected with the Deseret National bank of this city. The organization of a bank at Elsinore is now under consideration. sideration. This action is one of the many

This action is one of the many indications of the awakening prosperity of Sevier county since it was decided by the Utah-Idaho Sugar company to build a factory between Monroe and Elsinore. Mr. Riter stated that he had been deeply impressed by the appearance of all the crops in Sevier county, especially the beets and wheat. The absence of rain seemed to be no problem whatbeets and wheat. The absence of rain seemed to be no problem whatever there, as the great reservoir systems which have been established in the lower end of the county were tapped as soon as the Sevier river ran low, and the canals from the reservoir were supplying all the water that the farmers needed. The flourishing appearance of the entire Sevier county was in strong contrast with many pearance of the entire Sevier county was in strong contrast with many other parts of the state which had been affected by the drought.

Mr. Riter and Mr. Whitney visited Richfield, Elsinore, and Monroe, driving by wagon through the fields and inspecting the site of the sugar factory between the two latter towns. Both agreed that the location is as nearly ideal as possible.
